Attention:

Subject: Addendum No. 1, Statement of Work

STATINTL

Reference:

Gentlemen:

In response to a verbal request expressed during our recent visit to your facility, [REDACTED] is pleased to submit a detailed description of the proposed modifications to the [REDACTED] Enlarger Film Transport.

STATINTL

DETAILED DESCRIPTION OF MODIFICATION

GENERAL - In order to accomplish this extremely difficult task it is estimated that approximately three visits will be required to perform measurements on the equipment involved, to assure proper fitting of the modified and new components.

ITEM I - Redesign of Negative Carriage. The modification of the Negative Carriage casting will involve the removal of the Film Transport Assembly presently located on both sides of the film gate. The necessary machining will be accomplished to provide the space required to house the ways for the  $\pm 1\text{-}1/2$  inch fore-aft adjustment and the new Film Transport Carriage Assembly. A manual drive mechanism will be added for convenient and accurate setting of the Film Transport Carriage Assembly and a scale will be provided for use as a coarse reference.

ITEM II - The Film Transport Carriage Assembly will basically consist of a special aluminum casting provided with the Film Transport Assemblies, the Film Platen and precision ways for later mounting to the Negative Carriage Assembly.

ITEM III - The modification of the Light Shield Assembly will primarily consist of elongating the Film Wiper Strips on each side of the main housing to accommodate the plus-minus 1-1/2" translation of the film.

Should you require any additional information please do not hesitate to contact Mr. [REDACTED] at the letterhead address.

STATINTL

Very truly yours,  
[REDACTED]
